

Programme Advantages

01

Higher chance of getting into the preferred program since the applicant does not have to compete through UPU Online.

02

Provides opportunities for Malaysian and international applicants with IGCSE/GCSE and GCE O-Level qualifications, who are not eligible to apply via UPU Online.

03

Foundation graduates may directly enter IIUM's mainstream bachelor's programs without undergoing UPU Online merit selection.

04

Students will pursue the same programme and access the same facilities as those admitted via UPU Online.

Overview

The Direct Intake Foundation is a special entry program designed to admit students directly into the university's Centre for Foundation Studies (CFS) without going through centralized national placement systems like UPU. This pathway is typically aimed at both local and international students who meet the minimum academic qualifications and wish to pursue their pre-university studies at IIUM.
